#### UPGRADES:

The following applies to any of the above Licenses from an Upgrade program:

The above Wonderware Licenses are upgrades to your existing Wonderware Licenses and not additional Licenses. You may choose to continue to use the existing Licenses, but if you do, you may not use these upgrade Licenses. You may not use the existing Licenses on one computer and the upgrade Licenses on a second computer.

#### Additional information about software products that utilize Microsoft® SQL Server and components

##### Microsoft SQL Server License

A Microsoft SQL Server Standard Edition software license is included for use with some Wonderware products that utilize Microsoft SQL Server as a database. The included license must be used with the Wonderware products. Use solely with non-Wonderware products is prohibited. Supported versions and editions of Microsoft SQL Server are listed in each Wonderware product software readme file.

##### Exceptions, Products that do not include Microsoft SQL Server license:

- Wonderware InTouch
- Wonderware MES Servers (Operations, Performance, and Quality) versions 2014 and newer
- Wonderware Skelta BPM Server versions 2014 and newer
- Wonderware Enterprise Integrator versions 2014 and newer
- Historian Server 9.0 Enterprise Cluster: Requires separately purchased Microsoft SQL Server Enterprise Edition.
- Historian Server Express
- Historian Server running in Demo mode as 32 Tag process historian: Can be used with Microsoft SQL Server Express if licensed separately.
- Wonderware Recipe Manager Plus 2014 and newer
- Products bundled in Schneider Electric Industry Solutions and Products offered as an Add-on to Industry Solutions.

##### Wonderware Server products that include a Microsoft SQL Server Standard as a license:

The following Wonderware products include a license for Microsoft SQL Server Standard Edition as defined above:  
Development Studio, Advanced Development Studio, Application Server, Historian Server, Information Server, InBatch Server, Intelligence Server.

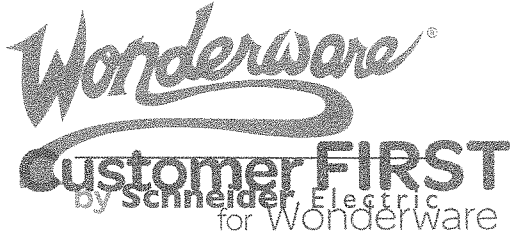

##### Microsoft SQL Server Media

One Microsoft SQL Server media is included with certain Wonderware product media. It is permissible to use the included Microsoft SQL Server Standard media for installation of Microsoft SQL Server Standard for each purchased Wonderware product that includes a Microsoft SQL Server Standard license, provided the appropriate Microsoft CALs are purchased as well.

Customers utilizing a supported Microsoft SQL Server Standard version older than the version included with the Wonderware product media should contact your local Wonderware representative to receive older version MS SQL media. Customers utilizing a supported Microsoft SQL Server version newer than the version included with the Wonderware product media or a different SQL Edition must purchase separate Microsoft SQL Server licenses and media from an authorized Microsoft representative.

##### Microsoft SQL Server Client Access License (CAL)

Certain Wonderware products include a Microsoft SQL Server Standard Client Access License (CAL) Runtime as indicated on the paper License Certificate that accompanies each order. The included Microsoft SQL Server Standard CAL Runtime license grants a client to access Microsoft SQL Server Standard versions and editions as supported by the Wonderware products and versions purchased.
